Army Research Institute for the Behavioral and Social Sciences, 2001 OCLC Number: (OCoLC)227798040 Subject: Cognitive learning -- United States. Excerpt: . . . Application of Cognitive Principles in Distributed Computer-Based Training Hierarchical The in-depth analysis of the FBCB2 tasks surfaced information and sequencing of processes that suggested an order to the instructional content. Although information some learning could occur by reading the description of each buttons functionality, the buttons do not necessarily work independently. Those relationships between button functions would be found only through trial and error if not described or shown to the learners. A sequence prescribed by the training design is imposed throughout the training modules. For example, the procedures for establishing the desired SA screen display attributes (e. g. , unit icons, terrain features, area of operation) are presented prior to the training on the Overlays, Reports, or Orders task. The users must first customize the SA screen display to provide the information applicable to their role in order to perform the other tasks (Overlays, Reports, or Orders)....
