Reviews

This ebook is fantastic. It is actually written in straightforward terms rather than hard to understand. It's been designed in an extremely straightforward way and it is merely soon after I finished reading through this ebook through which in fact modified me, altered the way I really believe.

FDI FROM EMERGING ECONOMIES

GRIN Verlag Mai 2012, 2012. Taschenbuch. Book Condition: Neu. 211x152x7 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2011 in the subject Business economics - Economic Policy, grade: A bzw. 1.0, BI Norwegian Business School, course: The Political Economy of Regulation, language: English, abstract: FDI from emerging economies has become more and more important in the recent years, it increased from \$149 billion in 1990 to up to \$1274 billion in 2005. As traditional FDI theories are more focussing on downhill- investments, namely investments from developed countries to developing ones, the uphill investment perspective becomes more interesting. This term paper looks into Indian FDI invested into the EU, to exemplify this the paper uses the case study of the Indian company Mahindra and Mahindra acquiring the German company Schöneweiss in 2007. It seeks to answer the question why an Indian company like Mahindra and Mahindra is investing into Europe, trying to find specific reasons for it by analysing empirical data. It is not only taken the perspective by Mahindra in this term paper but also the perspective by Schöneweiss, asking which were their reasons to agree to the acquisition. 28 pp. Englisch.
